I give up for now. Getting too deep in the weeds. The second page is very draft.

Audrey, Dan and I spoke briefly this afternoon and he knows this is first cut and needs your input.

I did find a 1997 document with info about UST removals, actually most docs do mention USTs. They did remove the two USTs near suite 157J and they did find contamination so I suspect they just did not remediate well enough.

Have a good weekend.

Thanks

Carolyn
